

THANN SPRINGS INTO A SEASON OF RADIANT SKIN

Thai-Inspired All-Natural Products for the Warmer Spring Season

OTTAWA (ON) – As Canadians gaze through their windows at mounds of white snow, one can't help but think of the warmer months ahead. THANN, the creators of all-natural skin, body and hair care, are launching exciting new spring collections, providing Canadians with the secret to luminous and radiant skin, shielded from changing climates, harsh pollutants and free radicals.

Products include the revolutionary Nano Shiso Body Butter, a truly innovative daily moisturizer ideal for dry skin due to changing temperatures, and the Shiso Hair Mask, a luxurious way to strengthen, protect and moisturize your hair.

All THANN products are formulated in Thailand using a unique Asian approach to well-being, based on establishing the natural balance of body, mind and spirit. This innovative recipe is based on knowledge from traditional herbal medicines and massage therapy from Japan, China, Thailand and India.

“As winter turns to spring, we need to nourish our skin to better meet the challenges of these changing conditions,” says Fadi Ghaby, president of THANN North America. “We challenge Canadians to try THANN’s unique line of products. They will not be disappointed!”

THANN products are 100% paraben-free, packed with natural antioxidants, botanical extracts, and exotic organic ingredients such as Shiso, lemongrass, black tea – and rice bran oil acting as a natural sunscreen. Suitable for all skin types, each is blended with natural essential oils, featuring neutral, subtle scents, with no artificial colours or fragrances.

ABOUT THANN

Manufactured in Thailand with the finest natural ingredients, all THANN products are 100% paraben-free, packed with natural antioxidants, botanical extracts, and exotic organic ingredients. Suitable for all skin types, each is blended with natural essential oils, featuring neutral, subtle scents, with no artificial colors or fragrances.
